

Day 02 Task Details

Abstract:

Enhance your restaurant project **Home page** and add JS popup boxes. 😊

Specifications:

- ✚ Get the user name and then make a welcome alert of this user.
- ✚ Ask the user some questions, to know more about your clients.
- ✚ Ask the user if he/she like foods,
 - If yes, ask about the food cuisines that he/she prefer (You can print or display the food cuisines that you have images about, and then the user chooses one of them) then display a suitable image.
 - If no, do what you want :D.
- ✚ Feel free to add what you want after you finished the requirements.

Proposed methodologies:

Using HTML, CSS and JS.
